SLEEP SYSTEMS

What is Enso?

Enso is a word that means circle and symbolizes enlightenment, strength, elegance, the universe, and the moment when the mind is to simply let the body and the spirit create. It is the expressive movement of the spirit at that time. The achievement of Enso is derived from the spirit and the peaceful, restful needs of each individual.

SLEEP SYSTEMS

CertiPUR-US

Is Your Foam Certified?

Look for the
CertiPUR-US® seal

The global foam industry developed the voluntary CertiPUR-US guidelines with the guidance of industry leaders, scientists, consumer advocates and environmentalists around the world. Foam is used in hundreds of different consumer products to provide comfort, support, safety and durability. It's one of the most versatile materials ever created.

At this time, only the foams that are used in the cushioning of upholstered furniture and bedding can become certified. The first foams to be certified have recently been announced. Soon, you'll be able to identify products with certified foam by looking for the CertiPUR-US seal.

CertiPUR-US

CertiPUR-US foams come with Comfort and Confidence...

If you are part of the growing movement of consumers who want to know all you can about the items you buy for yourself, your family and your home, you'll take comfort in knowing that home furnishings carrying the CertiPUR-US seal contain flexible polyurethane foam (FPF) cushioning products that have been tested and certified by independent laboratories.

CertiPUR-US is like having a health check-up for foam. The foam is examined and put through a series of scientific tests -- to be sure it meets the strict voluntary standards of the CertiPUR-US program. The tests evaluate foam content and important durability factors. Only foam products that have been tested and approved are certified by CertiPUR-US.

CertiPUR-US approved foams are:

- ✓ Emissions tested
- ✓ Content tested
- ✓ Low emission (VOCs) for indoor air quality
- ✓ Made without prohibited phthalates
- ✓ Made without ozone depleters (no CFCs)
- ✓ Made without mercury, lead or heavy metals
- ✓ Made without formaldehyde
- ✓ Made without methylene chloride
- ✓ Made without PBDEs
- ✓ Durability and performance tested

Technology in Step With Nature

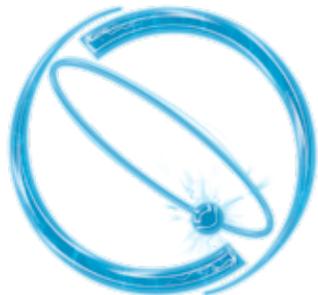

ACTIVE CHARCOAL
fights odors, filters harmful
elements, resists mold and
mildew

SILVER TECHNOLOGY
kills 99.9% of all bacteria and
harmful dust mites

MINERAL WATER
naturally deodorizes, freshens
and cleans

NEGATIVE ION
freshens, purifies and
neutralizes harmful allergens,
pollen and airborne particles

enso[®]
SLEEP SYSTEMS

Technology in Step With Nature

ALOE VERA

naturally therapeutic topical that encourages healthy skin and promotes calmness

TENCEL

stronger than cotton, moisture management attributes and natural anti-bacterial

BAMBOO

natural renewable cover, reduces body heat transfer and adds additional sleep comfort

CLUSTER FOAM

ventilates & controls sleep temperatures, adds support, and gives down like feel

enso[®]
SLEEP SYSTEMS

Technology in Step With Nature

QUICK RECOVERY FOAM

recovers its shape faster, breathes better, and provides maximum support

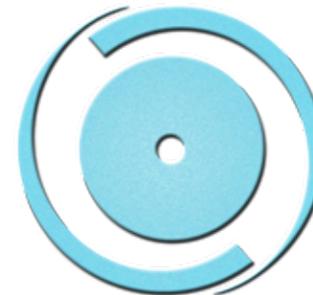

PUREGEL® FOAM

provides for a cooler, more conforming, healthy night's sleep

POCKET SPRING TECHNOLOGY

allows for individual contouring to support the unique shape of each body

PUREGEL SPHERES®

enhances pressure dispersion and increases conformity and support

PRESSURE RELIEF FOAM

airflow pressure relief foam reduces body pressure and increases ventilation

SLEEP SYSTEMS

Enso Sleep Systems

8" Hampton:

The Hampton mattress features a polyester cover, a top layer of Enso airflow pressure relief memory foam for added ventilation and to reduce body heat transfer and a base layer of high density foam for added support.

10" Polaris:

The Polaris mattress features a Tencel and poly cover, a contemporary waterfall edge design, a top layer of Enso airflow pressure relief memory foam (APR), quick recovery convoluted foam for added ventilation surrounded by a foam encased edge support adding 10% more usable sleep surface, crisp tailoring and durability, foam for a soft feel that rebounds to its natural shape quicker and a base layer of high density foam for added support.

10" Dreamweaver:

The Dream Weaver mattress features an Aloe Vera cover, a quilted top panel with contrasting welt, a support layer of airflow pressure relief foam for added ventilation and to reduce body heat transfer, foam encased edge support adding 10% more usable sleep surface and crisp tailoring and durability and a base layer of high density support foam for optimum support.

Enso Sleep Systems

10" Denali:

The Denali mattress features a Tencel and poly cover, PureGel® infused memory foam, Tri-Tech memory foam for a more conforming night sleep, foam encased edge support adding 10% more usable sleep surface and crisp tailoring and durability and a base layer of high density support foam for optimum support.

10" Sierra:

The Sierra features a Tencel and Polyester cover over 2" PureGel Plus Gel Memory Foam with Total Surface Coverage (TSC™). TSC Gel Memory Foam, with its head to toe, side to side, total surface coverage, positions the gel layer as close to the sleeper's body as possible, enhancing the ability of the Enso PureGel Plus Gel Memory Foam to conform to the unique shape of the individual, while all but eliminating pressure points. The additional layers of HR Support Foam and our foam encased support edge add to the comfort and durability of the Sierra. Enso PureGel Plus the ultimate in Cool. Conforming. Comfort.

12" Marakesh:

The Marakesh mattress features airflow pressure relief memory foam (APR) quilted to a Tencel, poly cover, a layer of premium memory foam, quick recovery convoluted foam for added ventilation, quick recovery support foam for a soft feel that rebounds to its natural shape quicker, foam encased edge support adding 10% more usable sleep surface and crisp tailoring and durability and a base layer of high density foam for added support.

Enso Sleep Systems

12" Nova:

The Nova memory foam mattress features a Tencel®, poly cover over a layer of premium Enso luxury firm memory foam and the additional layer of Airflow Pressure Relief Memory Foam allows increased ventilation to help maintain the optimum sleeping environment. The support base is created from a layer of ultra high density polyurethane foam that provides a durable and supportive base.

12" Blue Mist PureGel®:

Blue Mist features a Tencel and poly cover, PureGel® infused memory foam with PureGel Spheres® technology to enhance pressure dispersion and increase conformity and support. A layer of quick recovery convoluted foam for added ventilation, Tri-Tech memory foam for a more conforming night sleep, foam encased edge support adding 10% more usable sleep surface and base layer is a high density support foam for optimum support.

12" Strata:

The Strata features a Tencel and Polyester cover over 3" PureGel Plus Gel Memory Foam with Total Surface Coverage (TSC™). TSC Gel Memory Foam, with its head to toe, side to side, total surface coverage, positions the gel layer as close to the sleeper's body as possible, enhancing the ability of the Enso PureGel Plus Gel Memory Foam to conform to the unique shape of the individual, while all but eliminating pressure points. The additional layers of HR Support Foam and our foam encased support edge, along with 3" of Tri-Tek Memory Foam, and 2" of Quick Recovery Convoluted foam add to the luxurious plush comfort and durability of the Strata. Enso PureGel Plus the ultimate in Cool. Conforming. Comfort.

Enso Sleep Systems

12" Unity:

The Unity mattress utilizes the best of advanced Gel Infused Memory Foam, PureGel®, with the unique conforming characteristics found with individually wrapped coil innersprings. We start with a ThermaCool knit fabric which allows cool air to flow throughout the mattress. PureGel® Infused memory foam provides a cool, conforming, comfort layer. A layer of high density comfort foam allows for a supportive, yet comfortable experience. The Comfort Support Core features 7 inch individually wrapped coils on a layer of ultra high density base foam. These coils are encased in Enso border edge foam allowing for a firm seat edge and extra support when sleeping out to the edge.

12" Pinnacle:

The Pinnacle is a true Euro box top design featuring 2" PureGel Plus Gel Memory Foam (APR) with Total Surface Coverage (TSC™). TSC Gel Memory Foam, with its head to toe, side to side, total surface coverage, positions the gel layer as close to the sleeper's body as possible, enhancing the ability of the Enso PureGel Plus Gel Memory Foam to conform to the unique shape of the individual, while all but eliminating pressure points. 2" of additional HR Support Foam on top of the Comfort Support Core with 7" individual wrapped coils with added strength in the center and along the seat edge for the ultimate in support and conformability provides a luxurious plush feel. The 1" HD Support Base gives stability and durability to the Pinnacle. Enso PureGel Plus the ultimate in Cool. Conforming. Comfort.

13" Affinity:

The Affinity mattress utilizes the best of advanced Gel Infused Memory Foam, PureGel®; with the unique conforming characteristics found with individually wrapped coil innersprings. We start with a ThermaCool knit fabric which allows cool air to flow throughout the mattress. We then apply the Gel Spheres directly to the layer of PureGel® Infused memory foam providing a cool, conforming, comfort layer. A layer of high density comfort foam allows for a supportive, yet comfortable experience. The Comfort Support Core features 7 inch individually wrapped coils on a layer of ultra high density base foam. These coils are encased in Enso border edge foam allowing for a firm seat edge and extra support when sleeping out to the edge.

Enso Sleep Systems

13" Splendor:

The Splendor mattress features a 300 thread count cotton duvet cover, a mixture of premium silicone fiber, baffled memory foam clusters, airflow pressure relief memory foam for added ventilation and to reduce body heat transfer, and is surrounded by a foam encased edge support adding 10% more usable sleep surface, crisp tailoring and durability, a layer of foam for added comfort and a layer of high density base foam to provide lasting durability and support.

16" Moselle:

The Moselle mattress features airflow pressure relief foam and baffled premium memory foam clusters quilted to a tencel, poly cover, super premium airflow pressure relief memory foam incased in border edge foam, quick recovery convoluted foam for added ventilation, quick recovery support foam for a soft feel that rebounds to its natural shape quicker, foam encased edge support adding 10% more usable sleep surface and crisp tailoring and durability and a base layer of high density foam for added support.

Enso Sleep Systems

PILLOWS

We offer three styles of pillows. A standard Aloe Vera, dual sided memory foam and a dual sided Gel infused cluster memory foam.

The Aloe Vera standard pillow is made with Enso Airflow pressure relief (APR) memory foam for added ventilation to reduce heat transfer and features a polyester aloe vera finish cover. Available in only Standard size (18 x 27).

The Dual sided Enso premium memory foam has a bamboo cover that is naturally hypoallergenic and anti-microbial. Designed with a double welt border one side is premium fiber, softer and more relaxed, the other side is our premium memory foam. Available in both Jumbo (Queen) and King sizes.

The Ventilating Gel Memory Foam Pillow has gel infused memory foam and ventilating memory foam designed to keep you cool throughout the night. Non-allergenic design guards against bacteria, mold and mildew, dust mites and other allergens. Soft zipper cover can be removed for washing. Available in Standard and Queen sizes.

The Dual sided Enso PureGel Infused memory foam offers a super soft Tencel cover providing moisture management and is naturally anti-bacterial. Gel infused Clustered memory foam on one side for a cool, conforming, comfort and premium polyester fiber on the other for a luxurious feel. Available in both Queen and King sizes.

Pillow Rack Also Available

MERCHANDISE

Merchandise ships from Hong Kong direct or from domestic warehouse locations in North Carolina, California, Texas and Washington state.

Standard Aloe Vera Pillow

Jumbo Bamboo Pillow

Ventilating Gel Pillow

PureGel Pillow

The Aloe Vera Standard Pillow is made with Enso Airflow pressure relief (APR) memory foam for added ventilation to reduce heat transfer and features a polyester aloe vera finish cover. Available in only Standard size (18 x 27). (4 pillows per carton.)

The Dual Sided Enso Premium Memory Foam has a bamboo cover that is naturally hypo allergenic and anti-microbial. Designed with a double welt border one side is premium fiber, softer and more relaxed, the other side is our premium memory foam. Available in both Jumbo (Queen) and King sizes. (4 pillows per carton.)

The Ventilating Gel Memory Foam Pillow has gel infused memory foam and ventilating memory foam designed to keep you cool throughout the night. Non-allergenic design guards against bacteria, mold and mildew, dust mites and other allergens. Soft zipper cover can be removed for washing. Available in Standard and Queen sizes. (2 per carton.)

The Dual sided Enso PureGel Infused Memory Foam offers a super soft Tencel cover providing moisture management and is naturally anti-bacterial. Gel infused Clustered memory foam on one side for a cool, conforming, comfort and premium polyester fiber on the other for a luxurious feel. Available in both Queen and King sizes. (2 pillows per carton.)

Pillow Rack Available

*All pillows must be ordered as cartons. The Aloe and Bamboo pillows are packed 4 per carton and the PureGel pillows are packed 2 per carton.

RTA Foundation

Our upholstered components make this RTA foundation the most attractive in the industry. With our packaging dimensions 10" x 14" x 82" this light weight foundation can ship by either FedEx or UPS and can be assembled in only a few minutes.
